ABOUT ME

I'm a full-stack web developer with a passion for creating seamless, user-friendly websites. Proficient in both front-end and back-end technologies, I transform ideas into dynamic digital solutions.

WORK EXPERIENCE

Web Design and Developer

2023 - PRESENT

Upwork | Freelance

My journey as a Web Designer and Developer at Upwork involves turning creative ideas into captivating online experiences. I focus on responsive design and efficient development, working independently to meet client needs.

Full Stack Web Developer

2023 - 2023

Juggle Rewards | Freelance

As a Full Stack Web Developer at Juggle Rewards, I designed and developed interactive web applications. I collaborated with a talented team to create user-centric solutions, combining front-end and back-end technologies to enhance user experiences.

MERN Developer

2022 - 2023

NonAcademy | Remote

At NonAcademy, I served as a MERN Developer, working remotely to build robust web applications. My responsibilities included optimizing code and ensuring seamless functionality, contributing to the success of various projects.
